Acronis Windows WD Align
Release Notes for version 2.0.107

These release notes provide information on the latest updates to the Acronis Windows WD Align.

The information on these release notes pertain to the following:

Software Release:
- *WD Align Windows Version 2.0.107*
- *WD Align Windows Version 2.0.106*
- *WD Align Windows Version 1.1.0.506*
- *WD Align Windows Version 1.0.0.314*

Version 2.0.107

New Features:
- Support for the GPT partitioning scheme. This makes it possible to align partitions on a GPT disk.
- Compatibility with both BIOS and UEFI systems.
- Alignment of partitions located on Extended Capacity disks.
- Ability to detect self-encrypted drives that are compatible with TCG Opal specification.
- Improved graphic user interface.

Version 2.0.106

New Features:
- Support for the GPT partitioning scheme. This makes it possible to align partitions on a GPT disk.
- Compatibility with both BIOS and UEFI systems.
- Alignment of partitions located on Extended Capacity disks.
- Ability to detect self-encrypted drives that are compatible with TCG Opal specification.
- Improved graphic user interface.

Version 1.1.0.506

New Features:
- Now only MSI package is shipped.
- Unsupported file systems can be aligned sector-by-sector.
- Linux kernel is updated to the latest version.
- BPKT model is now recognized as an Advanced Format Disk.

Resolved Issues:
- 4K Drive not detected by Acronis v1.0.0.314 as AFD in Windows 7.
- Removed "option selection" screen in installer.
- Acronis v1.0.0.314 installation ending splash screen.

- Acronis Windows v1.0.0.314 - Error message request.

Version 1.0.0.314

Resolved Issues:
- Fixes in READCAP16 detection.
- Added BUDT model.
- Fixes in compatibility with Acronis products.
